

tighten hammerlock

halfbacks make good lawyers, artfully brutal,
impressive looking, obey the coach, oblige the fans,
play the game, and believe deeply
that the referee's impartial.

full nelson, full strength

supplicate before old bosses
prostitution and promotion
flaunt a muscle
good grooming before copulation.

heave and twist the hips

young lions in a cagey business
straighten their ties to meet the public
flashing big balls like bolares
snaring rabbits to protect from other lions

breathe deep, bend him over

participants are polite and proper
disagreement frank and firm
positions clear consistent and intractable
feelings high invisible and vicious

spread those legs

their balding herdsmen (saggy senior lechers)
devotees of studied violence, vicarious bullies
encourage their young bucks
for profit, and non-profit, motives

erection, aim

once you've got the engineer into the train
which way can he go
that's why training engineers
is so important

perfect pin, prick

the problem is
knowing if you're being screwed
when your ass is numb.
